

VivoCare Residence: Where Compassion Meets Excellence in Dementia Care

VIVO  **CARE** Residence stands as a beacon of excellence in dementia care in Thailand, blending Western care standards and methodologies with the warmth, patience, and hospitality of Thai culture.

As a leading and certified care home, we specialize in a comprehensive range of dementia care and other neurodegenerative diseases. Our commitment extends beyond being a facility; we are a haven where professionalism meets compassion.

Our Approach to Care

At VivoCare, we embrace the person-centered care philosophy, pioneered by Tom Kitwood. This approach prioritizes each resident's individuality, recognizing their unique needs, preferences, and histories. By focusing on the person rather than just the symptoms, we aim to enhance the quality of life for each resident, allowing them to thrive in an environment that feels like home.
